

Wipak[®] PPAP

Strong Thermoformable Film for Steam

Wipak® PPAP

Strong Thermoformable Film for Steam

Wipak® PPAP is steam sterilizable non-curling bottom film intended for use as thermoforming packaging material for medical and surgical items.

Technical Details

- Coextruded PP/PA/PP film
- 80, 100, 120 and 150 microns

Benefits

- Strong, non-curling symmetric structure
- Remarkable strength and puncture resistance
- Suitable also for tear opening applications (e.g. with OPP)

Applications

- General thermoformable bottom film, sealable and peelable with steam papers
- For packaging of prefilled syringes, bandages ja other steam sterilizable devices
